Swib thank you!

Despite Lockdown 1 AND 2 - the committee at Scottish Women in Business continued to support The Glasgow Care Foundation throughout. In November the committee members walked over 400 miles to raise over £1000 for GCF. In addition they then supported us as their Charity of the Year for their Christmas Party Raffle - raising a further £300 last week! Your continued support means the world to us and those you continue to support.

WHERE DOES OUR FUNDING COME FROM?

Unfortunately we do not receive funding from any local or national government. Instead the money we need to help those in need comes from capital investments made in earlier years, bequests, legacies and donations. We also receive some income from fundraising. This is why we so desperately need your donations and help.

AGENT FEEDBACK

I contacted GCF regarding a service user, he is moving from temporary accommodation into permanent housing however his Scottish Welfare Fund hasn't been granted as of yet. He was being forced to move into a new flat with nothing but the clothes on his back. A colleague from GCF got back to me almost instantly, she advised that normally they would help after the SWF was either rejected or there were items that weren't awarded. I believe that Cheryl recognised the panic in my voice and after hearing my service users situation she ordered a brand new bed and microwave which will be delivered to my service user in 48 hours. I can not thank you enough for the kindness you have shown myself and my service user and I'm so glad I got in touch when I did. From the bottom of my heart I thank you!

CHRISTMAS APPEAL

This festive season we can't go to homes so instead of our normal toy appeal - we are looking to feed the people of Glasgow

We are asking for you to buy a supermarket voucher next time you are doing your shopping and send it to us here:
